- Node.js
- Express.js
- MongoDB
- RESTful APIs
- Authentication and Authorization(JWT)
- Database querying and management

Full stack Development:

- Integrated front-end and back-end technologies
- Handling HTTP request and response
- Building and consuming RESTful APIs

Database and Storages:

- MongoDB
- SQLite
- Understanding of NoSQL database

Development Tools and practices:

- Visual studio code, Command-Line, npm

Other Skills:

- Problem-solving
- Debugging

PROJECTS

Food Munch Website(kirufoodsite.ccbp.tech)

January 2022

Developed a responsive website for Food Store where users can see a list of food items, detailed information about a food item, offers

- Designed page using following HTML structure elements like li, header, article, footer elements and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components

Technologies: HTML, CSS, Bootstrap Flexbox

Jobby App (jobbyappbykiru.ccbp.tech)

Brought to life an all-encompassing job search platform, Jobby App.

- Created pages for Login, Home, Jobs, and Job item details with React components, form inputs, and event handlers.
- Secured user information with JWT tokens, REST API calls, and local storage.
- Utilized React Router for protected routes and persisted login state.

Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Nxt Watch (nxtwatchkiru.ccbp.tech)

Developed the Nxt Watch platform, a YouTube-inspired application where users can access various video categories, such as Trending, Gaming, and Saved videos, and search for specific content while customizing the visual theme.

- Crafted a responsive UI with React components for pages like Login, Home, Trending, Gaming, and Saved videos, utilizing event handlers and form inputs.
- Established user authentication through username/password input and HTTP API calls, maintaining login state with JWT tokens and local storage.
- Enabled secure navigation using React Router components for protected routes, redirecting unauthenticated users to the login page. Technologies used: React JS, JavaScript, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Certification

Responsive Web Design

- Proficient in creating responsive layouts using modern CSS techniques, including Flexbox and media queries. Experienced in designing and developing websites that adapt seamlessly to different screen sizes and devices

Dynamic Website Development using JavaScript

- Certified in building dynamic websites using JavaScript, demonstrating proficiency in front-end development, DOM manipulation, and interactive web features.
